

# Flashlights

## Syclone

Syclone offers a unique combination of benefits and features, it's waterproof to 100 feet, protected to tough Factory Mutual\* and CSA\*\* standards. It's unique swiveling head works as a hand held flashlight, or uses a clever 360° clip for hands-free operation. Unit comes with helmet mount and VHB adhesive. Dual bulbs offers both a krypton bulb providing up to 6,000 candlepower, or an amber LED that won't destroy your night vision. Choose from rechargeable+ or disposable battery versions.

*Backup amber LED has a run time of 72 hours, and won't wash out red map markings.*

*Rechargeable version*

- Syclone® yellow
- Syclone® olive drab
- Syclone® yellow
